

JQuery Quiz II

1. The functions are equivalent. The first code fragment contains the index and the value object, the value e and "this" are the same, "this" is the current value of object in the current index, the second code fragment returns nothing, and the last code fragment returns just the index.

2.

```
$(document).ready(function(){  
    $("div").find("ul").css({"color": "blue"});  
});
```

Or

```
$("div ul").each(function(){  
    $(this).css("color","red");  
});
```

3.

```
$(document).ready(function () {  
    $('body').append("<div><h1>jQuery Core</h1></div>");  
});
```
